

Capricorn Enterprise Major Projects Forum 2020

Thursday 29 October 2020

Hamish Smith, Rookwood Weir Support Services Manager

Agenda

Project governance	Alliance objectives	Construction
Project outcomes	Weir specifications	Industry Capability Network
Project overview	Fast facts	Support for Central Queensland
Project update	Project timeline	Contacts
Alliance	Regional opportunities	Questions

Project governance

Sunwater is committed to delivering water for prosperity, benefitting Central Queensland communities, agriculture and industrial enterprise.

Project owner

Project financiers

Project construction authority and owner's representative (alliance)

Project outcomes

The aim of the project is to:

- Improve water security for the region
- Boost the regional economy
- Create jobs during construction
- Grow and diversify industry and agriculture
- Allow for the buying and selling of water

Project overview

A landmark project that will upgrade local road and bridge infrastructure to build a weir that will capture valuable water in the lower Fitzroy River, 66 km south-west of Rockhampton, for use across the region.

- Rookwood Weir
- Road, bridge and culvert upgrades
- Environment
- Water sales
- Rookwood Weir Water Supply Scheme

Project update

Project	Timeline	Jobs created	Design and construction teams
Thirsty Creek Road upgrade	Complete	25	Rockhampion Regional Council
Capricorn Highway Intersection upgrade	Complete	35	CIVIL MINING & CONSTRUCTION PTY LTD - Building The Future -
Riverslea Bridge upgrade	15 % complete. Expected completion June 2021	25	CIVIL MINING & CONSTRUCTION PTY LTD - Building The Future -
Rookwood Weir	Early works commence in Early-November 2020 Expected completion 2022	200+	sunwater GHD Gacciona McCOSKER

Alliance

Alliance objectives

 Cost: to deliver the project within the available budget

 Time: to ensure completion and handover on time

Safety: creating a culture of safety for all project members

Quality: to create an asset that is fit for purpose

 Community: to ensure sensitivity when engaging with the community and stakeholders

 Environment: to ensure genuine sensitivity and care to the environment

Values: to maintain consistency with Sunwater's values and code of conduct

 Compliance: to ensure rigorous compliance with best practice principles and local benefits tests

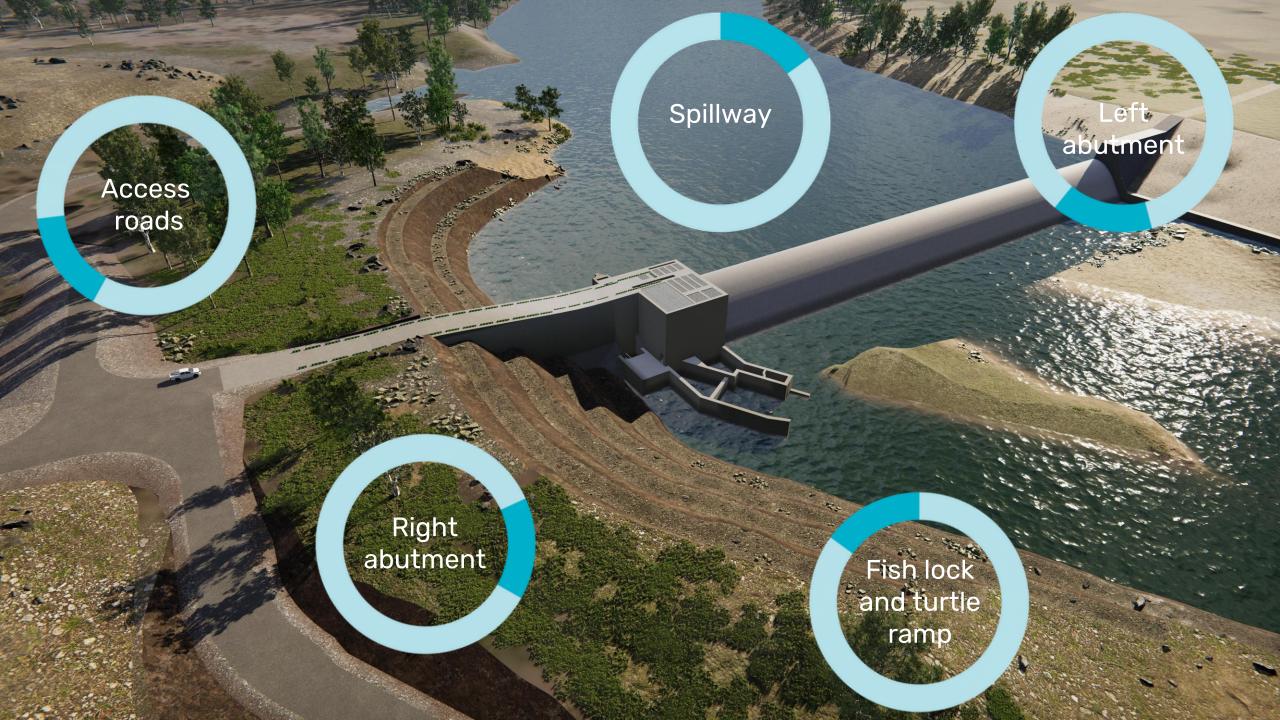

People: skills and development

Fast facts

- Full supply level: 45.5 m Australian Height Datum (AHD)
- Full supply volume (FSL): 65,402 ML for blended use medium priority (MP) and high priority (HP) subject to final design
- Yield at FSL: 76,000 ML of MP subject to final design
- Impoundment length: approximately 55 km
- Minimum operating level: 37.0 m AHD
- Weir length: 370 m
- Height above riverbed: approximately 15.5 m

Rookwood Weir will be the largest weir operated by Sunwater in regional Queensland.

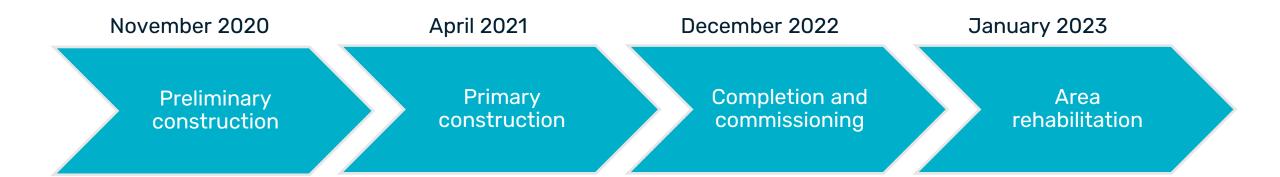

Project timeline

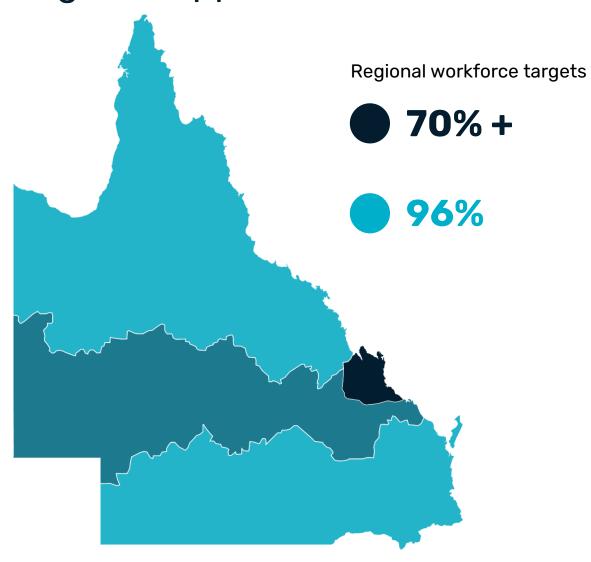

What's happening when?

Regional opportunities

More than 200 workers required over a two to three-year period.

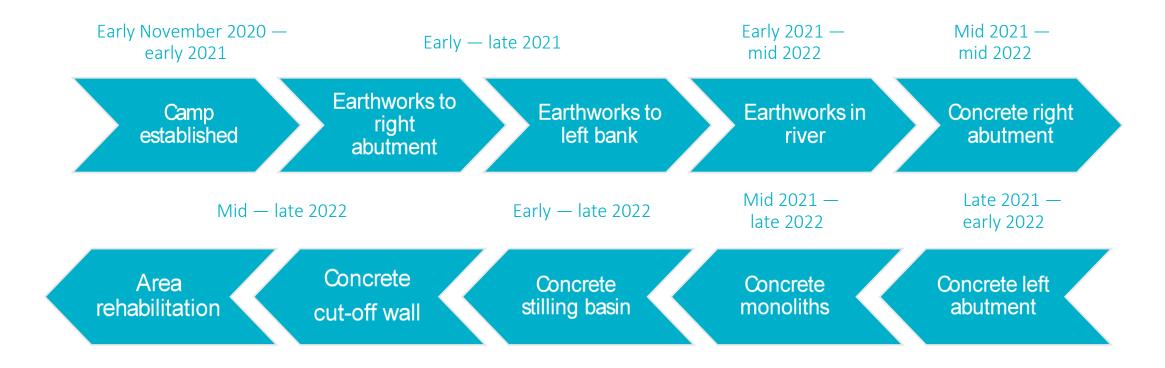

Construction timeline

Key construction activities and milestones include:

Preliminary works

Camp set-up and early construction

The works undertaken will be early works and the scope of this work includes project camp site preparation and installation erection of camp buildings and facilities

 Setting out and clearing of project site boundaries

General clearing and grubbing of site

 Installation of preliminary erosion and sediment controls

 Construction of settling, and water storage ponds

 Surveys of the project site and commencement of fencing to boundaries

 Installation of microwave communication equipment

Construction materials

Materials required to construct the weir

Approx.

120,000 m³ of concrete required

Approx.

235,000 t of concrete aggregates required

 $\begin{array}{c} 68\% \\ \text{of the aggregate to be won from site} \end{array}$

Industry Capability Network

Register your interest today

Sunwater has partnered with the Industry Capability Network (ICN) to connect contractors, subcontractors and suppliers with Rookwood Weir Project opportunities.

Local industry operators interested in the project are encouraged to register their interest at our ICN supplier portal: rookwoodweir.icn.org.au

Support for Central Queensland

Upcoming events

- 10 November 2020
 - Gogango community event and barbeque
- 12 November 2020
 - Industry briefing + resources to help build capability statements and tendering
