To whom it may concern,

**Re: Official Woppaburra Engagement Protocol**

On the 3<sup>rd</sup> of December 2021 there was a Consent Determination held on Konomie (North Keppel Island) where the Woppaburra people were formally recognised through the Federal Court and granted Native Title rights under the *Native Title Act 1993* (Cth) to their lands and surrounding waters.

This Federal decision has resulted in the establishment of the Prescribed Body Corporate- The Woppaburra Saltwater Aboriginal Corporation RNTBC to oversee the Native Title rights and interests of the Woppaburra People.

Woppaburra Saltwater Aboriginal Corporation joins the Woppaburra TUMRA and Woppaburra Land Trust to make up the three official representative bodies who now come together to progress all Woppaburra business. The representatives on these committees have been nominated and endorsed by our elders and family groups and as such are responsible for representing Woppaburra interests.

**Please note that Individuals acting outside these entities do not represent Woppaburra and we encourage you to contact us if you have any questions or need guidance.**

We look forward to connecting with you to explore future ventures that will deliver great outcomes for both the Woppaburra People and the wider community.

Yours sincerely
